## Data Flow Diagrams

Date: _____

Students Names:                IDs:

_____

_____

_____

_____

Construct a Data Flow Diagram to specify the following activities:

1. Compute A  = a * b + a / (c - d)
2. Compute B  = a * A + b * (c - A)
3. Compute C = A + b * B
4. Store and print the results of A, B and C

(Note: a, b, c, d are input values)
