CSCI3100 In-Class Practice

Software Cost Distribution

Date: _____

Students Names: IDs:

_____

_____

_____

_____

According to the software cost distribution in slide 1-10, please compare the phase costs of "Requirements/design", "Implementation" and "Testing" in the descending order, among the following well known software systems. For example, in terms of "implementation", one possible order is a > b > c > d > e.

a. iOS 13
b. TACCS – tactical command and control system
c. MATLAB
d. IQMS manufacturing ERP
e. Spaceborne radar systems

Meanwhile, you need to briefly explain why the cost distribution of these systems is ordered in this way.
